

Guidelines for Invigilators & Participants: MOU Leftshift training Assessments

Invigilator Must Ensure

- Exam hall should be equipped with uninterrupted internet and power supply.
- The System admin (IT Support) should be present until completion of the assessment.
- Apart from training partner invitation, College has to assign two invigilators for each exam hall.
- College Invigilator should arrive 15 minutes early to the assessment premises.
- Ensure students' mobile phones and any electronic gadgets are switched off or set to flight mode and kept inside their bags.
- Ensure earphones, AirPods, headsets, smartwatches, etc., are strictly not allowed to the test center.
- Ensure Students' bags are kept away from their seats, preferably outside the exam hall.
- Ensure that every student is thoroughly checked before entering the examination hall.
- Ensure only participants appearing for the test are seated (when the assessment is conducted inside a training room/lab).
- Seating allocation should be done randomly, and ensure that there is natural spacing between Students
- Ensure Outlook is closed and participants are logged out of the Teams app.
- Ensure all participants start the test as per the scheduled time.
- Record attendance on a hard-copy sheet, including the student's Superset ID, name, and signature. Ensure that the student's college ID card is verified at the time of signing. After the assessment, scan the completed attendance sheet and email it to the Capgemini Point of Contact (POC).
- Keep moving around the room, avoid sitting in one place, and refrain from using your mobile phone
- In case of any malpractice, communicate with the respective Capgemini SPOC with required details (name, Superset ID, email ID) and relevant proof.
- For any technical issues or challenges with assessment platform, please contact the Capgemini Point of Contact (POC) who is present at the examination center for immediate support
- Students are allowed to use rough sheets (Write Name and Superset Id on the top), after assessment submit rough sheets to invigilator.
- Students can be permitted to take bio-breaks; however, only one student shall be allowed to leave the examination hall at any given time
- After completing the assessment, students must leave the room without taking their laptops. They should return only after all candidates have finished the assessment to collect their laptops

Participants Should

- Arrive 15 minutes early and switch on the system.
- Mobile phones and any electronic gadgets (earphones, AirPods, headsets, smartwatches, smart glasses etc.) are strictly not allowed to the test center.
- Connect only to the college-provided network.
- Ensure Outlook is closed and exit the Teams app.
- Do not start the assessment without an invigilator instruction; otherwise, the assessment will be nullified.
- Do not exchange laptops and use only your laptop or college provided system.
- Read all instructions carefully before launching the test.
- Ensure the webcam is on, and your full face is constantly visible throughout the test.
- If students are found indulging in malpractice or involved in any form of misconduct, the LOI will be revoked with immediate effect
- In case of any issues during the test, inform the invigilator or Capgemini representative to resolve the issue.
- Do not engage in discussions during the assessment. For any support, contact the invigilator.
- After completing the assessment, leave the room without taking your laptop. Return only after everyone has finished the assessment.

Do's & Don'ts for iMocha Assessments

Pre-requisites-

1. Restart laptop to get all windows updates installed (If pending) (couple of hours before assessment).
2. No issues with Network connectivity. Wi-Fi OR LAN must be connected seamlessly.
3. Camera and Mic must be functional on laptop.

Important pointers –

1. Close all applications (excel, word, ppt, pdf, MS teams) before starting the assessment.
This will avoid any error popups due to any unexpected error.
2. Clean camera lens for better image quality.
3. Use Chrome/Microsoft Edge Browser for better experience.
4. Position in a way that full face is visible.

5. Make proper distance among candidates so that other candidate's face is not visible to another YPs camera. Peep out screen may lead to test Termination.

6. Avoid switching between application post starting tests as it will lead to Test Auto-Submission.
7. Do not talk with nearby person as it may generate a proctoring flag.

Important pointers for YP's –

1. Check mail from Capgemini India Technology services Pvt Ltd noreply@imocha.io id with Subject-line "**Welcome! Login to your Skills Intelligence platform**".
2. As instructed on mail, reset your password (keep your password remembered) (If you have already accessed iMocha platform you can follow from step number 4).
3. You will receive confirmation on mail with subject-line "**iMocha | Password generated successfully.**"
4. Use the Login link provided or <https://talent.imocha.io/> to access iMocha platform.
5. Once you login navigate to "**My Assessments**". Please click on the "**My Assessments**". All assessments assigned to you will appear here only.
